

Biography

A product design student with a goal to create a more positive interaction between user and design.

Empathy is one of my strongest skills. This skill allows me to better understand the feelings and interactions between a user and a product.

When not at the studio, I like to go hiking or make coffee.

Education

Walla Walla University
September 2017-Present
B.S. Product Design

Skills

Design

Adobe CC
Rhino 3D
Solidworks
KeyShot
WordPress
Laser Cutting
CNC Machining
Research
Sketching
Prototyping
Graphic Design
Branding

Personal

Spanish
Creativity
Adaptability
Communication
Organization
Dedication
Problem Solving
Empathy

Experience

Product Design Teacher Assistant

Walla Walla University
September 2018-Present

Assisted my design professor by helping cut student's CAD files on the CNC Laser Cutters and the 3 Axis CNC Router, resulting in the discovery of how different materials can be cut or engraved by a laser or a CNC router bit. Organized the program by creating class schedules, machine charts, and department forms.

Human Resources Department Designer

Walla Walla University
October 2018-November 2018

Promoted a special event hosted by the department by designing a flyer. Kept in contact with the programmer, which resulted in a successful flyer and event.

LatinX Club Designer

Walla Walla University
September 2018-December 2018

Helped expand the Latino culture at Walla Walla University and around the community by designing stickers and posters for events. Partnered with other club officers to lead out in events.

Girls Counselor

Leoni Meadows Camp
Summer 2018 and 2019

Responsible for different groups of girls, aged 8-16, every week. Helped take care of infants during family, medical, and dental camps.

Recognition

Deans List Honors September 2017-Present
Future Scientists and Technologists Summer 2017
